Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1,9-10, 17-18, drawn to first process of making compound of formula I employing formula II.

Group II, claim(s) 1, drawn to additional processes of making formula (I).

Group III, claim(s) 14, drawn to compound of formula IV.

Group IV, claim(s) 15-16, drawn to compounds of formula III.

If group II is elected applicants must choose one process from among the alternate routes a2-a4, b1-b4. If route a2 chosen group IV would also be examined since it is the reactant employed in a2. Similarly if a3 chosen group III would also be examined.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: They relate to multiple processes for making the same compound employing a variety of reactants. 37 CFR 1.475(d) permits only certain combinations as having unity of invention. Where more than one process exists unity is lacking. Also compounds of III and IV lack the same structural essential element since one is a

pyridazone and the other is a dichloropyridazine and therefore not sufficiently related such that one would be obvious over the other.

A telephone call was made to Mr. Carrier on 6/20/01 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emily Bernhardt whose telephone number is (703) 308-4714.

A facsimile center has been established for Group 1600. The hours of operation are Monday through Friday, 8:45 AM to 4:45 PM. The telecopier numbers for accessing the facsimile machine are (703) 308-4556 or (703) 305-3592.
